

CAFETERIA GUIDELINES

Students Eating Breakfast

1. Breakfast is served in the cafeteria until 8:10 each morning. Students who come in after that WILL be able to eat breakfast, but they must take it “grab and go” to your classroom.
2. Please designate an area/procedures for your breakfast eaters.
3. Remember that students must have their basic needs met (including food) in order to learn.

Teacher Lunch Responsibilities:

1. Line students up and escort them to the entrance of the serving area.
2. Please be on time when collecting students after lunch. (Note: If it is not too congested, grade levels may choose to exit through the foyer instead of walking outside.)
3. Prepare your students for cafeteria success by discussing/practicing procedures, manners, and noise level. Consistently review these expectations throughout the year.
4. Teachers should be standing and supervising the behavior of their assigned classes, not eating and/or visiting with each other. (All staff have a 30 minute duty-free lunch for this.)
5. BRING YOUR GRADE LEVEL WALKIE-TALKIE TO LUNCH

Extra Items

1. Students will be called for second helpings or extra items (snacks, ice cream, etc.). If the cafeteria manager needs to change the process of lunch buying, ice cream days, etc., we will be respectful of that choice.
2. Grade levels will determine their day(s) for ice cream purchase and share that with Catherine at the start of the year so we can let parents know.

Teacher Lunch Items:

1. Teacher lunch charges should not exceed \$25. Please be aware of your outstanding bill.
2. Remember that the meal includes one (only) entrée. It is not a buffet line. If you choose to have additional servings of anything, please mark it down on the chart. We want to continue to use the honor system for this, but we need everyone to be respectful of it.
